

MANUFACTURER'S CERTIFICATION STATEMENT For Timeless Products placed in use from January 1, 2011 to December 31, 2011

You may be eligible for a 2011 Energy Tax Credit if the Timeless windows or doors you purchase qualify for ENERGY STAR.

The **Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010** extends tax credits for energy-efficient windows and doors for 2011, but at lower levels than the previous two years. Homeowners may receive a tax credit for 10% of the cost of products (not including installation), up to \$500 but with a maximum of \$200 for windows and \$500 for doors.

Homeowners cannot take the 2011 tax credit if they have already taken tax credits for energy-efficient products totaling \$500 or more for the tax years 2006 through 2010.

IRS Notice 2009-53 sets forth the requirements for a Manufacturer's Certification Statement. Taxpayers may rely on this Statement that certain Timeless windows and doors are Eligible Building Envelope Components. Taxpayers are not required to attach this Statement to their tax return. However, they should retain this Statement for their records.

The manufacturer of Timeless windows and doors is Gorell Windows and Doors, LLC, 1380 Wayne Avenue, Indiana, PA 15701.

The IRS provides guidelines for determining what energy-efficient improvements qualify for the tax credit. Pursuant to these guidelines, Gorell has identified in this document Timeless windows and doors as Eligible Building Envelope Components that qualify for the tax credit allowed under IRS regulations when installed as an exterior window or door of the taxpayer's primary residence.

Please refer to the charts on the following pages and the ENERGY STAR map below to help you determine if the Timeless products you purchase are eligible, based on the location of the home in which these products are or will be installed. This pertains primarily to certain Timeless products that incorporate the AC Master glass option.

For further clarification, Gorell encourages homeowners to visit the IRS web site or consult with their tax consultants. Other qualifying factors, as well as additional information can also be found on ENERGY STAR's web site:

http://www.energystar.gov/index.cfm?c=tax_credits.tx_index
